

The special interest group "Ion Channels" of the German Physiological Society organizes an **online symposium on Intracellular Ion Channels**.

Organizers: Prof. Albrecht Schwab (Münster) and Prof. Ivan Bogeski (Göttingen)

When: **25 April, 2022 from 15:00 until 17:00**

Where: Zoom link:

Zoom-Meeting: Intracellular Ion Channels

<https://www.zoom.us/j/66976015538?pwd=bmozTUkyVXNXS0FuWW16TkzZlhjdz09>

Meeting-ID: 669 7601 5538

Kenncode: 810787

Scientific Program

15:00 – 15:30

Prof. Geert Bultynck, Leuven, Belgium

IP3 receptor modulation as an integral part of the anti-apoptotic action of the BCL-2 family

15:30 - 16:00

Prof. Sandip Patel, University College, London, UK

Segregated cation flux by TPC2 biases calcium signaling through lysosomes

16:00 – 16:30

Dr. Maria Patron, MPI, Cologne, Germany

Regulation of mitochondrial proteostasis by the proton gradient

16:30 – 17:00

Prof. Christian Wahl-Schott, MHH, Hannover, Germany
