

**Genetic epilepsies and other neuronal ion channel disorders:
Mechanisms and therapeutic perspectives.
18th – 20th March 2020, Tübingen, Germany**

Subject: Channelopathy meeting Tübingen, March 18-20, 2020

Dear colleagues,

We like to announce an upcoming meeting, entitled

“Genetic epilepsies and other neuronal ion channel disorders: Mechanisms and therapeutic perspectives”.

This international meeting will take place from the 18th - 20th March 2020 in Tübingen, Germany. This event highlights the pathophysiological mechanisms and treatment options in ion channel disorders. International experts in epileptology, neurophysiology, genetics, gene therapy and bioinformatics will focus on current topics and future trends in their field.

Everybody is welcome to present either cases with specific, personalized treatments (see program for examples), or any other data related to the topic in the poster session.

You can register for the meeting by using the registration form (<https://www.hih-tuebingen.de/de/aktuelles/termine/hih-veranstaltungskalender/>). Please book your accommodation yourself. On the registration form you will find a list of hotels that may still have capacities.

We are looking forward to exciting discussions, a lively exchange and a stimulating meeting in Tübingen.

With best regards

Holger Lerche and Ulrike Hedrich
