## When deciding which poster to visit:

## Technical problems

„internet connection - slides did not change, only if I left the room and entered again“

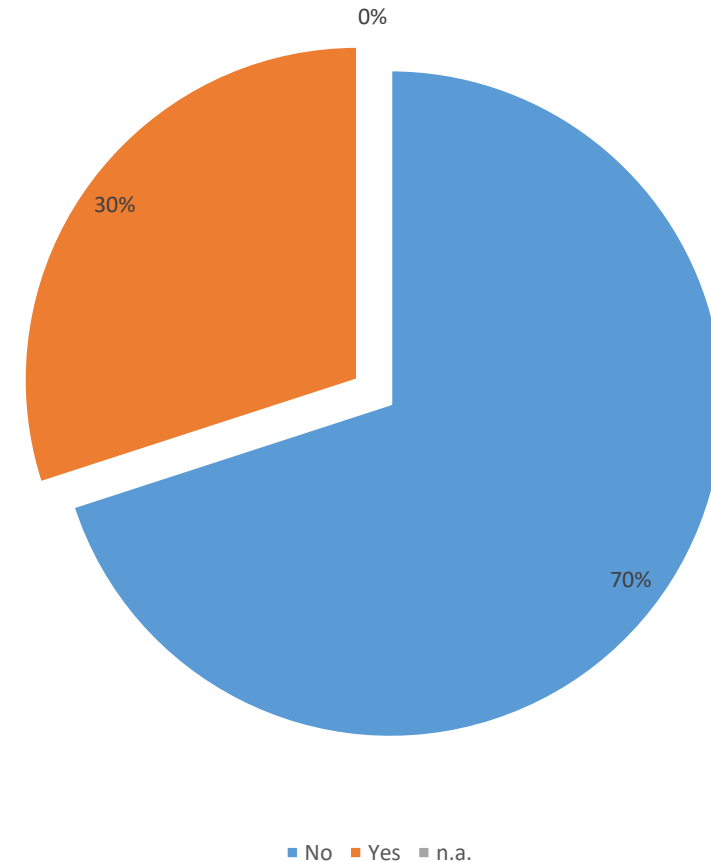

“first microphone problems, switched pc; sound problems, better after re-login (firefox)“

“The forum lagged so I was (as a speaker) asked to turn off my video”

„Internet connection“

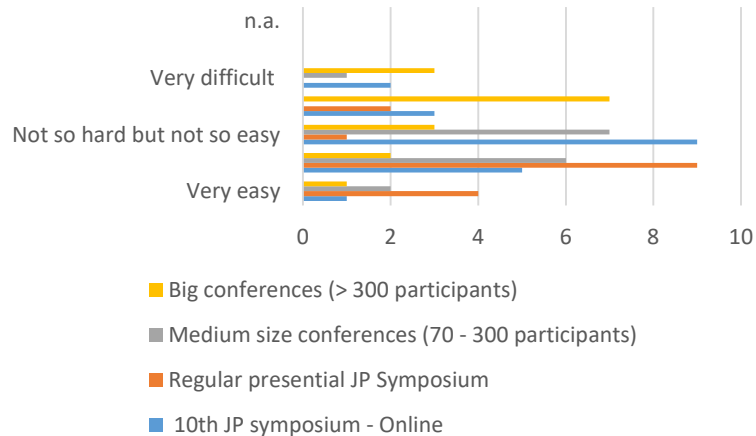

„Some internet issues“

„Nur Präsentationsbildschirm teilen und Präsentationsmodus einstellen, Firefox and Chrome, Microsoft Powerpoint, Ja ganzer Bildschirm teilen ohne den Symposiums Bildschirm zu sehen“

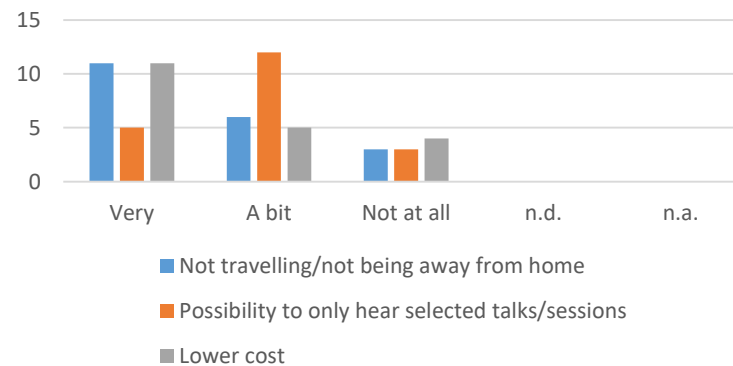

## Advantages and disadvantages online mode

Ease of socialization

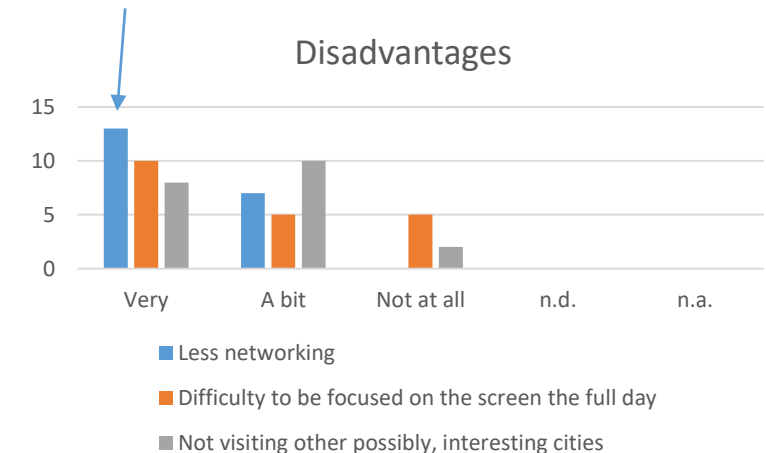

Advantages

“Possibility to attend it from home early or late in the evening”

Disadvantages

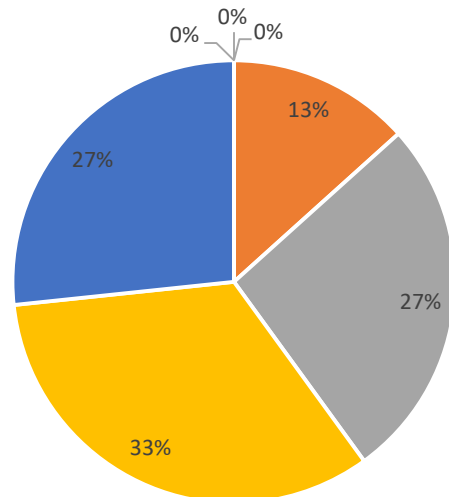

„Networking is totally lacking“

## Final comments

“For the poster session it would have helped if you could have a look at all the posters before the first poster session. The way it was was more like a guided tour around each poster without seeing them before. At least for the first day “

“Awesome organization team! Thank you for that!”

“I found really disappointed that the career workshop was hold in German. This symposium, although taking place in Germany, is supposed to be open to eveyone willing to attend it, meaning also foreign students who do not understand or do not master German. In these conditons, they can miss some very interesting and useful information for their career path. It would be nice, for the next Symposium, to specify to all the speakers that it should be exclusively in English. Thank you. “

“Thanks for the great organization of the conference!”
